

# Quality Policy

At NWC, we are at the forefront of precision components and advanced materials solutions for high-tech industries, offering advanced wafer products that fuel innovation and support a connected, low-carbon world. We provide our customers with a comprehensive portfolio of cutting-edge products.

To enable this:

1. **We innovate** -- Pioneering new processes and technologies to stay ahead.
2. **We Deliver Quality** -- Ensuring every product meets the highest standards.
3. **We Improve** -- Using data and teamwork to continuously enhance what we do.
4. **We Care** -- Striving to do right by our customers and our people.

With strong leadership and a relentless drive for excellence, we strive to be the world's leading provider of precision components and advanced materials solutions for high-tech industries.

NWC is dedicated to achieving excellence in every facet of our business through focused management, technological leadership, operational discipline, robust compliance systems, and ongoing improvement.
